SKILLS   EXPERTISE

- REST API Integration
- Component-Based UI Development
- Interactive & Dynamic User Interfaces
- AI-Powered Feature Development
- Modern Frontend Technologies
- Responsive Web Design

PROJECTS

Online.com   GitHub LIVE

Designed a modern, responsive landing page for Online.com, enhancing performance, ensuring seamless user experience across devices, and integrating smart search for improved product discovery.

Nuxt.Js   JavaScript   tailwindcss   API

AI-trip-planner   GitHub LIVE

Developed a responsive and dynamic UI for an AI-powered Trip Planner using Tailwind CSS, Vue.js, and Nuxt.js. Integrated APIs to generate personalized travel plans through AI, including automated destination suggestions, budget estimation, and itinerary generation for a seamless user experience.

Nuxt.Js   JavaScript   tailwindcss   API

Delicious Salads menu   Github LIVE

Enhanced user experience in online ordering. Integrated backend APIs for seamless data flow. Built tools to streamline menu management and order workflows. Developed features like: real-time order status tracker & dynamic menu listing.

Nuxt.Js   JavaScript   tailwindcss   API

Ai-powered-idea-generator   Github LIVE

Built an AI-powered Idea Generator using Vue.js, Nuxt.js, and Tailwind CSS that transforms user prompts into complete project ideas. The system automatically generates project concepts, feature lists, tech stacks, and development roadmaps based on user input, providing an intelligent and interactive experience.

TECH STACKS   TOOLS

HTML   CSS   JavaScript

VueJS   NuxtJS   Git

ReactJs   GitHub   NodeJs

Firebase   TailwindCSS

Canva   Figma

Education & Experience   2019 - Current

Front-End Developer (Diploma in Engineering)

Hands-on experience building responsive web apps with HTML, CSS, JavaScript, Tailwind CSS, Vue.js, Nuxt.js, React.js, and Firebase. Skilled in component-based UI, REST APIs, and creating clean, high-performance interfaces.

Currently working on eCommerce and AI-driven frontend projects, focusing on dynamic data handling and seamless user experiences.

Diploma in Engineering, Government Polytechnic Institute, Bogura (2020–2024) | CGPA: 3.87/4.00 and SSC in Science, 2019
